DS

“ My dearest Caroline Sunshine,

I am so blessed to have been on the receiving end of your love this lifetime. You were my best friend. You showed me what “family” means.

You will always be the special person I share rainbows with. I have no regrets - we always shared our “I love you’s” - our connection was and still is magical - it spans across lifetimes. I know you are with me in the butterflies and dragonflies, the red birds and deer we loved, the sound of the river, the stars in the Sky and the warmth of the sunlight that I can finally feel on my skin again. I love you so. You are my tribe.

Donadagohvi. Until we meet again.

*Love,
Dicentra*
