“ Dawn reflected a light of hope in her eyes from the first time I met her - in September of 2021. As I write this it has been about a year to the time when we met in Mexico. She had been a survivor of the cancer I was fighting and offered me encouragement during our visits as we received our treatments. My daughter, Amanda, was with me and connected with Dawn first. Dawn was an avid reader and shared with us critically needed cancer treatment info as she discovered in her vast readings. I'm very appreciative of what she has shared with me and others. I have finished reading a book that she recommended to me just a few weeks ago. Little did I know that she'd be in heaven as I read. The book, *Imagine Heaven*. My prayers for comfort and for hope will continue for the Maddox Family. I hope that you read this post, as Dawn has entered Heaven nearly 3 1/2 months ago. Blessings, Vicki, Amanda and Don Carmichael.
