“*Esther and I are first cousins. I am ashamed to say we had not see each other in years, I had no idea that she esd sick and I have no one to blame but myself. I let life get in the way of visiting one of my favorite cousins and now I am so sorry. Our mothers were sisters and was very close. We had fun play together when we were little. There was 7 of us cousins and enjoyed playing in the gullies of Fairhope. When we all were at Mom and Pop's house those were the best memories. Please Debbie if you read this contact me. I have some pictures of us all when we were little. Love Sheila, 251-284-0708.*
