“ *My heart goes out to Gary's family and friends. I didn't know him for too long, but we became pretty good friends while we both were working at Turquoise Place together. He had a kind heart and was tormented with worry for his wife. God bless you.*

“ *My thoughts and prayers are with you. I always enjoyed visiting with Gary when I worked with him. He was always upbeat, friendly and funny.
He's going to be missed greatly, but we will see him again one day.
