“ PJ, I have fond memories of Gary and you as the "1st preenie birds" in Gulf Shores. I hope you remember that I am your friend even tho we don't see each other as often as we did in the past. We have gotten older with health issues. Please know I am as close as a phone call should you need me. I have sat and remembered the good times with you and Gary!

Sending my love and prayers to you in this time of grief.
