“ I was very sad to hear of Steve's passing. I had the opportunity to work with him, being trained by him, as he worked on our walkway, deck and seawall. I thoroughly enjoyed my time and shared lunch with him where I found out more about his very interesting life. He was very interested in my son who is an avid surfer and living in California close to where Steve lived. I talked to him a couple of weeks ago and he was hopeful and trying to be optimistic. He changed the subject and was asking about my family and how I was doing, that was so Steve. It was my honor and privilege to meet and know Steve and he will be missed, so much more than people realize. Our prayers are with his friends and loved ones. Bob and Cindy Blubaugh
