“ Nancy and I met in college and were friends for 54 years. From the moment I met Nancy, we could almost read each other's minds. Just had to look at each other and we knew we were thinking the same thing.

*My heart goes out to Lauren and Brody, and, Emily and Adam.  
RIP dear friend...until we meet again!*

“ There are just too many great and funny memories to list. Being best friends with Nancy for 62 years is indeed a lifetime of friendship. She was indeed like a sister to me and I am heartbroken with this loss. I pray to our God that someday I will see her in Heaven.
