“ Pat was a mentor to me when I started in the engineering world (2004). I was proud that I got to call him a friend. We worked together for I believe 18 years, it would have been 20, but 2009-2011 was a rough patch for both of us. In 2012, I reached out and was able to get him to come work with me again at Preble-Rish, and he stayed when we became Dewberry. He was always a go-to for tough problems to solve. He was one of the good ones and will be truly missed.

“ I can remember coming over to y'all house when we were growing up to visit y'all when we lived in Florida.

“ Pat was a mentor to me, and I was proud to call him a friend. We worked together for nearly 18 years. If it were not for 2009-2011, it would have been 20. We both had a rough couple of years there, but I was able to talk him into coming to work with me at Preble Rish in 2012, and he stayed around when we became Dewberry. I am so glad that I got to spend the time with him that I did. If I ever had a problem, he was a go-to to help me solve or steer me in the right direction. He continued to be that for me until he retired just a few years ago. We celebrated Work Christmas at his house for a few years and would watch the boat parade on Fish River. He loved his family and did everything he could to take care of them. He was one of the good ones, and he will be truly missed.
