Pauline Simpson

Born on November 11, 1937, in Boston, Massachusetts, Pauline Fay Simpson was the youngest child of Beatrice and Timothy Fay. She had three siblings who predeceased her: Patricia Mary Kinsman, Joseph Francis Fay, and Timothy Francis Fay. She was married to Robert Simpson for 53 years until his death in February of 2012. She is survived by three loving nieces and one nephew: Kathleen Kinsman, Siobhan Flaherty, Erin Fay-Azzato and Joseph Fay, who will all remember her as kind, loving, feisty, and fiercely independent. In addition to her biological family she also will be missed by her longtime Friends, the McCabe family. She was a part of their lives for over 63 years. Our most fond memories will always be of sitting around the camp fires listening to her and Bobby sing songs and play the guitar.

Polly enjoyed her volunteer work at the library, the Visitor Center, and the Clothes Closet along with her many of years working with the Wolf Bay watershed organization, gathering samples, keeping the books, and keeping the shore lines clean.

Polly's Celebration of life luncheon will be held at the senior center in Foley Al. 304 E. Rose Ave. on Wednesday, April 12, starting at 11:00. Following the luncheon, guests are welcome to stay and play dominoes in remembrance of Polly's love of games.

In lieu of flowers please send a donation to any cat rescue haven of your choosing.

“ Jeff and I enjoyed getting to know Bob and Polly shortly after we moved back to AL in 2001. Our first Coastal Cleanup was done from their pontoon boat and a couple more after that. We had many years of Wolf Bay Watershed Watch contact (Trash & Treasure sales, picking up water testing supplies, Polly helping with snacks for Coastal Cleanup), plus helping with the annual library book sale. After she sold her house, we only saw her twice and we were surprised to hear of her death months after it occurred. Thanks to the McCabes and family members that kept tabs on Polly the last couple of years! She definitely prized her independence.
