“ Bob and I been friends since the mid 70's. We left Indiana together the summer of 76. We traveled to California then to Louisiana. We had a blast traveling across country. We both ended up in Alabama, Bob ended up in southern part while I'm in the northeastern part. Even though we were often miles and states away from each other, we always managed to stay in touch. Bob was my best friend. We were closer than brothers. I'm gonna miss that straight shooter guy. He was one of a kind

“ Sweet man (he used to argue when I called him that). I have known you since we were innocent, lovestruck kids, me 14 and you 15. I have wonderful memories that will last the rest of my life. You were a hard-headed, hard working, loyal man who was much more loved than you realized. Your journey through life was often a hard one, but your comment on this was "it is what it is." In your new journey your broken body will be repaired and you will have more love than you can ever imagine. Till we all meet again, rest your weary mind, revel in God's light and love forever. Sheila
