“Roslyn was a great friend of mine . A beautiful person . Full of love , with a heart of gold and a deep love for her family and friends . She had such a strong faith in God . She knew God was with her and would carry her through to her last days . Roslyn loved to take walks everyday until her legs could no longer carry her . She loved going on rides , always committing on how beautiful the trees were . Everytime she saw a blue car , she would comment that that was her favorite color . Roslyn loved watching the birds and squirrels as they came to her feeders each day . She even named one of the squirrels 'Gary'. Everyday held something different for her . Every walk and every ride she always saw something new . She will be greatly missed by all who knew and loved her . I know she's dancing and singing with her husband in heaven . Love you my friend until we meet again . Mona
