“ *The best memories I have of my Granny were the ones where I'd watch The Grand Ol' Opry with her and Grandpa. My brother and I always made blanket palettes on the floor and curled up by the couch with our stuffed animals and in our favorite pajamas. When I think of both of them, I can smell her house and see the warm lighting of the living room and the two of them in their respective rocking chairs. ❤️*  
*I miss them so so much but am so glad they're together again.*

“ *I remember curling up in Granny's lap when I was little and watching her color. She loved coloring animals, especially birds. She would describe how the animals should look and how she was going to color them. She would tell me stories and just let me sit there as long as I wanted. It felt like the safest place in the world.*
