“ Kim - learning of Sam's passing was a complete shock, and our sorrow is full. Jill and I wish we could have been at the service, but we couldn't manage the trip. Sam was a dear and generous friend, and was extremely good to us. Our visits to Fort Morgan weren't complete without several evenings and dinners together each visit. She was the first person we got to know in the Surfside community, and was the best neighbor we could think to have. She loved our boys, and they freely loved her back, and both of them spent a lot of wonderful private time with her. We have too many memories to narrow down to any one, but watching Fourth of July fireworks from her deck and watching over a turtle nest with her as it was nearing a hatch will be two that will come to our minds. The world isn't as good a place as it once was, and our trips to the Gulf will never be the same. Please know how much we're missing her, and will miss her deeply going forward. God bless you and your family, and thank you for sharing her with us, however briefly. Chris, Jill, Grayson, and Maddox Phillips
