“ Travis, you mean a lot to the kids and I. We have too many memories to recall in one sitting, I could write a whole book on them and it still not be enough. You were always there to help out with the kids and you would give the shirt off your back for anyone you loved. I will miss getting to stand around and talk about any and everything with you and listening to all your stories. Your presence will be missed at all the softball games, awards ceremonies, birthdays, holidays and just those random days you'd show up at the house simply because you were in the area. Or the phone calls when we were going on a road trip wishing us to be careful and to let you know that we made it. Not a day goes by that the kids and I think and talk about you and laugh about all the good times. Those memories will live on forever.

We love and miss you always,  
Krissy, Destin, Jaidyn & Raelynn

“ This is a memory I will always have about Travis, my son. I decided to venture out on my own by myself to Sam's Club to pick up a few things I needed. I told Travis to answer his phone in case I ran into a problem he just gave me a strange look & I left. Well I-called Sam's & ask them if they could bring me a cart & they said they didn't have one inside or outside but they lied, I got a buggy to hold on to bc I can't walk by myself, I have to have a Walker or a Wheelchair, but anyway I made it inside the door & I almost fell & the sweetest lady came over to where I was & ask me if I was ok , I said no I'm not I need a cart that I can drive, I told her what Sam's said & she said that's not true & she had her husband go get me a cart I could drive & she made sure I was ok before she left & I proceeded into the store & I had just got in there & got a couple of things & I started to getting sick so I got angry with myself & turned the cart around to leave & there stood my son Travis, he said I followed you over here bc I didn't want you to try to be here by yourself bc you know you're not able to do that yet, he went & got a buggy & we got what we needed & left, he followed me to my car & put the groceries in & he told me DON'T try to take ANY of the groceries in I'm right behind you & we will get home at the same time & I'll take bc them in & he did. This is one memory I will never forget. He was my right arm. Him (son)& Kim (daughter) have been with me since my husband died to help me. Travis loved being here.  
Travis Will always be loved & missed.

“ Travis was like my son not my son-in-law, I love him dearly & I miss him so very much. I knew when he was at home bc he always turned the TV in the kitchen on the Western Channel. I still hear him in the kitchen at night or at least in my mind I do. He was always there if I needed him. He will be missed by many of us, we love you Travis..

TA

“ It’s hard to believe Travis is no longer with us! Travis and his facial expressions as Kim would say something or the crazy stories he would have! The stories he had talking about his family you could see in his face and the gentleness in his voice as he spoke! YES I said gentleness!! Travis was the type of man if you called him he would be there!! No questions asked!! He would help any way he could! Heaven has gained another angel.
